UI DEVELOPER

Event Management Website | [Wed Bestie](#)

- Designed and developed a responsive event management website using HTML, CSS, Bootstrap, JavaScript and PHP.
- Collaborated with the design team to create a visually appealing and user-friendly interface.

Dental Implants Website | [Raj Dental Implants](#)

- Using PHP, we simplified the menu structure to ensure ease of navigation and improved user flow.
- Optimising the user interface to ensure fast loading times and smooth interactions. This may involve techniques like image optimization, code minification, and caching.
